🔗 [Personal Portfolio](#)

👤 Summary

Web developer with a strong interest in building practical and user-friendly applications. Eager to grow through real-world projects, continuous learning, and new challenges.

📁 Projects

Campus Hub 🔗, School Management System

Tech Stack: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a web-based school management system for students and teachers.
- Implemented secure login and authentication functionality.
- Designed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Created and managed MySQL databases for storing and retrieving application data.
- Built backend functionality using PHP to handle user interactions and database operations.

Rhythmix 🔗, Music Player Web Application

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS, REST API

- Developed a responsive music streaming interface inspired by modern music platforms.
- Integrated the Jamendo API to fetch and display music content dynamically.
- Built interactive playlist browsing with horizontal scrolling and dynamic content rendering using JavaScript.
- Designed a modern and mobile-friendly user interface using Tailwind CSS.
- Implemented music player controls, playlist sections, and search-focused navigation for improved user experience.

SnapSorter 🔗, Image Review & Organization Tool

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS

- Developed a browser-based image review tool for organizing image collections.
- Implemented folder upload, drag-and-drop support, and thumbnail navigation.
- Added keyboard shortcuts, fullscreen viewing, and image saving using the File System Access API.
